

IMPORTANT NOTICE

For Classroom Course students, enrolled in batches scheduled after 1st January, 2020 but their classes got affected due to Covid 19

The session for GATE & ESE 2021 was started from January 2020 and was supposed to be completed by December 2020, but due to Covid-19 Pandemic and subsequent restrictions/guidelines set by GoI, the physical classes were paused from mid March 2020. Thereafter MADE EASY management took a decision to support the students through its online classes.

1. From the last week of March 2020, pre-recorded video classes of General Studies, Engineering Mathematics, and Reasoning-Aptitude sections were provided on MADE EASY Live App.
2. As soon as the lockdown conditions were relaxed and our faculties started reaching at our studios (first week of June, 2020), MADE EASY started providing online classes of technical subjects, these subjects were taught in the same pedagogy which is adopted in our offline classes. The syllabus which is common to GATE & ESE was completed by December end /January first week. Moreover, online classes of Engineering Mathematics and Reasoning Aptitude lectures were provided again on the demand of students. It is notable that these subjects comprehend a significant portion in GATE syllabus.
3. MADE EASY Publications facilitated students by providing books/study package either from our study centers or through courier services, during the tough time of lockdown.
4. During COVID Pandemic, MADE EASY Prime launched a new online course of 300 hrs, namely "Concept Through Questions (CTQ)". This online course was provided free of cost to all the students enrolled in ESE/GATE 2021 classroom courses.
5. Just before GATE 2021 exam, MADE EASY Prime launched "Quick Revision Course (QRC) for GATE 2021", which was again provided free of cost to all the classroom registered students.
6. In some of the branches the GATE and ESE syllabus of technical subjects is same so it was completed before GATE exam. But in few branches where it varies, the extra technical syllabus of ESE will be made available at MADE EASY Live App from 1st March 2021 onwards.
7. The exam date of ESE 2021 Prelims is postponed from January 2021 to July 2021, hence MADE EASY has decided to provide new and updated lectures for some of the GS subjects again, which will contain updated content and current affairs. These lectures will be made available soon after GATE 2021 exam to all the ESE registered students. It is notable that these lectures are repeated (already provided in March - April 2020) but it is in the larger interest of students community.

In addition to above supports, MADE EASY has already notified to its classroom course students, that those students who could not get opportunity to attend physical classes due to Pandemic are invited to attend the classroom courses which are expected to start from first week of March 2021. Considering the requirement of the students, MADE EASY management has decided to provide below mentioned options to the students:
